INTRODUCTION

I am a determined individual, who's main objective is to be able to excel in various fields within the Information Technology industry. I seek to further develop and improve my skills and put my knowledge into creating and completing work projects. I am a person who at all times follows the guidelines whilst still remaining on a creative side, punctual, eminent at team work as well as through individual work tasks. I wish to become a valuable asset to the work environment by incorporating ideas and innovative work tasks.
